PROJECTS

PERFECTPLANNER | CO-DEVELOPER

Sept 2017 - Present

- Co-created PerfectPlanner, a travel planner that plans your itinerary for you.
- Coded in Javascript and using Node.js with Express as the back-end and Handlebars as the front-end.
- Coded the back-end of retrieving and processing travel information.
- Utilized Amadeus and Yelp APIs to acquire travel information.

RETROTANKS | CO-DEVELOPER

July 2017 - Aug 2017

- Co-created RetroTanks, a game based on the NES game Battle City—the objective of RetroTanks is to shoot other players' tanks with your tank in an online multiplayer arena.
- Coded in Javascript and using Node.js with Express and Socket.io.
- Coded the game mechanics of tank interactions and collisions and some of the back-end of server and client interactions.

SCROLLER3D | DEVELOPER

Oct 2016

- Created Scroller3D, an android game where you dodge scrolling platforms as they move up the screen—a 3D version of Scroller, which I created using Corona in high school.
- Created using Unity and coded in C#.

EXPERIENCE

HACKMHS | CO-FOUNDER & LEAD ORGANIZER

June 2015 - June 2016 | Millburn, NJ

- Organized hackMHS I and hackMHS II: Millburn High School's 1st & 2nd hackathons, successful 12-hour and 24-hour coding marathons, with over 100 attendees each.
- Led logistics team of 6 people: planned activities, acquired equipment, and requested permission from school administrators.
- Set up workshops: invited various companies' employees and universities' students to come teach workshops about programming and the tech industry.

MINNESOTA MISSIONS | CO-ORGANIZER AND CAMP COUNSELOR

March - August 2015 & 2016 & 2017 | Bemidji, MN

- Collaborated with the local church, fundraised, planned logistics, made activity plans, and outreached to the nearby community to create week-long camps for local underprivileged children.
- Established a program with the local church to help local children all-year round and extended this program to more children through the camps.
